Section C - Descriptions and Specifications

SOW**VAULT TOILET SPECIFICATIONS****PART 1: GENERAL**

1.1 DESCRIPTION: The work to be performed under this section consists of the Fabrication, Delivery, and Installation of an ADA Accessible Uni-Sex Vault Toilet as indicated by these specifications. Delivery will be to the North Viewpoint Recreation Area, Chief Joseph Dam, located on the north side of the Columbia River 1 mile East of Bridgeport, Washington.

1.2 QUALITY ASSURANCE:

1.2.1 The bidder shall have available supporting data to prove compliance with specifications on all materials required.

1.2.2 The bidder shall have evidence of satisfactory experience for a minimum of three (3) years in design, manufacture, and installation of the Vault Toilet systems on which he/she proposes to bid, and is specified herein.

PART 2: MATERIAL STANDARDS:

2.1 APPLICABLE PUBLICATIONS AND STANDARDS: The following publications of the issues listed below, but referred to thereafter by basic designation only, form a part of this specification to the extent indicated by the references thereto or as required.

2.1.1 (AWS) American Welding Society
D1.1-82... Structural Welding Code

2.1.2 (ASTM) American Society for Testing and Material Standards A6....General Requirements for Rolled Steel Plates, Shapes, Sheet Pilings, and Bars for Structural Use.

2.1.3 (ASTM) American Society for Testing and Material Standards C231....Standard test method for Air Content of freshly mixed concrete by the pressure method.

2.2 Materials: shall conform to the requirements specified for the particular item, and where these requirements are not specified in detail, the materials shall be suitable for the intended usage of the item.

3. VAULT TOILET DESIGN AND FABRICATION.

3.1 VAULT TOILET DESIGN CRITERIA. For consistency, a photograph is attached to provide the Contractor with the profile of the style of Vault Toilet we are seeking. This style Vault Toilet is currently located at four of our other Recreation Areas.

All walls must be a minimum of four (4) inches thick, steel reinforced concrete with a cement content of 6.5 sacks per cubic yard, with water to cement ratio of 5 gallons per sack.

The exterior walls shall be a pea gravel exposed aggregate finish approximately 50 percent of the aggregate face exposed.

The interior walls shall be painted with a minimum of two coats of white epoxy enamel. The floor of the toilet shall be painted with a 2 part epoxy, grey in color, with anti-skid sand added to the final coat to provide an evenly distributed uniform non-skid surface.

The simulated shake pitched roof shall be fabricated from pre-cast steel reinforced concrete, a minimum of five (5) inches thick, and designed to extend out beyond the entrance door and attach to the privacy screen via pipe or concrete supports. The privacy screen shall extend out from the corner of the toilet at the left side of the door a

minimum of sixty (60) inches, and then parallel the face of the toilet it's complete width. The exterior portions of the privacy screen shall be exposed aggregate to blend in with the exterior portions of the toilet.

The vault (minimum 1000 gallons) shall be lined with an ABS plastic liner sealed to the interior walls of the concrete vault to provide a double containment system.

3.2 Metal Work: All metal work and steel door shall be coated with a minimum of one (1) coat of metal primer, and two (2) coats of enamel. The color of enamel: as specified, No. 20450 (tan) Federal Standard No. 595. The door shall be constructed of a minimum 18 gauge steel, 1 3/4 inches thick with internal bracing, have a non-vision two piece louver for mounting on each side of the lower portion of the door, and an insect screen with 12-16 mesh openings per inch between the louvers. The blades of the louvers shall be minimum of 18 gauge steel, and be welded or set into frames.

The lock-sets shall be a privacy type lever actuated cylindrical lock-set. In order to comply with our Project's core and key system, the lock-set shall be a "Best Locking Systems" interchangeable core 7 Pin lock-set with a (BHMA)626 Satin Chrome Plated finish.

Our current vender and possible outlet for this contract is: Best Access Syatems, 18401 East Valley Hwy, Kent, Washington 98032. Phone #: 425-251-6001 FAX # 425-251-4959.

The two Window Units located on each side of the toilet shall be translucent Lexan Glazing to provide privacy while providing adequate light to interior of toilet.

3.4 Hardware: The Toilet Riser shall be fabricated from cross-linked Polyethylene. Attachment plates and screws or bolts will be stainless steel.

The Grab Bars will be 1 1/2 inch outside diameter stainless steel tubing with satin finish. Grab Bars will have a 1 1/2 inch wall clearance, concealed screw mounting flanges. All hardware must meet or exceed ADA Standards.

3.5 Site Preparation: Site preparation, excavation, and restoration shall be conducted by the contractor. All excess soils, rocks, and debris excavated to house the vault shall be hauled from the site and disposed of at a separate site not to exceed 5 miles from the construction site. Floor slab shall be level and placed at existing soil elevation. Disturbance to grass cover and soils in the area shall be kept to a minimum. Soils vary somewhat at each location with sub-straight consisting of rock, sand/soil mix, and gravel. Large boulders (3 to 5 feet in diameter) have been found in previous excavations in the area.

3.5.1 Unexpected Finds of Human Remains: Although it is unlikely that human remains may be encountered during excavations, if the Contractor encounters them, the Contractor shall immediately cease work in the area of the find and leave all materials intact.

The Contractor shall notify the Contracting Officers Representative (COR) or Technical Representative (TR) immediately of the find, and the COR/TR will contact the Okanogan County Sheriff's Department and/or the Colville Tribal Police Department to ascertain whether the remains are of a recent and potentially criminal origin. Concurrently, the COR/R will notify the appropriate Seattle District Offices, and the Colville Confederated Tribes' History Department for consultation about the nature and disposition of the remains should the Sheriff's Department determine that the remains are associated with Native American burial practices.

The Contractor shall redirect work to other areas, sites or tasks until the disposition of the remains is arranged to the satisfaction of the appropriate Indian group.

Disposition will take place as rapidly as possible, in any case within thirty days of the find, in conformity with Native American Graves Protection and Repatriation Act (NAGPRA), Section 3 (d).

3.5.2 Occupation and Midden Sites: If the Contractor encounters evidence of prehistoric occupation such as non-sawed bone fragments, charcoal, fire-modified rock and cryptocrystalline flaking debris in a place where no prehistoric archaeological site has been identified previously; or encounters concentrated historical debris in excess of fifty years of age in a place where no historic archaeological site has been identified previously, the Contractor shall immediately cease work in the area of the find, leaving all objects in place.

The Contractor shall notify the COR/TR assigned to the contract immediately of the find. The COR/TR would arrange for an onsite inspection by cultural resource specialists, including but not limited to Seattle District

Archaeologists, official Colville Tribe Cultural Specialists, and the Washington State Archaeologist within twenty four hours of receiving such notice. A coordinated decision shall be made within thirty days regarding the further disposition of the site.

3.5.3 Protection of Resources: Environmental pollution is defined: "As the presence of chemicals/cleaning products, physical or biological elements, or other agents, which adversely affect human health or welfare; unfavorably alter ecological balances; affect other species; or degrade the utility of the environment for aesthetic and recreational purposes". The control of environmental pollution requires consideration of air, water, land, and involves noise and solid waste management as well as any other pollutants.

The Contractor (and Sub-Contractors if used) shall comply with all applicable Federal, State, and local laws and regulations concerning environmental pollution control and abatement. All waste products shall be disposed of in accordance with Local, State, and Federal Laws.

3.6 WORKMANSHIP. Workmanship shall be of the highest grade in accordance with the best modern practices to conform to the specifications for the item of work being furnished.

PART 4. Responsibility for Inspection and Acceptance.

4.1. Contractor. The Contractor shall be responsible for the performance of all inspections of his/her personnel and respective subcontractors, to the extent necessary for compliance with contract specifications, to assure proper material usage and workmanship.

4.2. Government The work will be conducted under the general direction of the COR (Contracting Officer's Representative, and is subject to inspection by his/her appointed inspectors to ensure strict compliance with the terms of the contract.

No inspector is authorized to change any provision of the specifications without written authorization of the Contracting Officer, nor shall the presence or absence of an inspector relieve the contractor from any requirements of the contract.

4.2.1 The Government reserves the right to perform inspections, as deemed necessary, to assure that supplies and services conform to prescribed requirements. Such inspections, however, will not be performed in such a way as to unduly affect the progress of the work.

4.3. Final inspection and acceptance shall be at the destination by the COR (Contracting Officer's Representative) Laura M. Beauregard, Natural Resource Manager,

4.4. On-site coordination with the Contractor shall be with Park Ranger Mark Harris.

PART 5 Warranty.

5.1. The Contractor warrants that, unless otherwise specified, all materials and equipment incorporated in the work under this contract shall be new, and in accordance with the specifications of this contract.

5.1.1 Warranty of material and workmanship shall be two (2) years from the date of delivery and acceptance.

5.2. The Contracting Officer will give written notice to the Contractor of any latent defects within 30 calendar days after discovery of the defect.

5.3. Within a reasonable time after such notice, the Contracting Officer may by written notice, require the prompt correction or replacement of any substandard parts thereof that do not conform with the requirements of this contract within the meaning of paragraph 5.1 of this section.

PART 6 CONTRACTOR DELIVERY AND PERFORMANCE

6.1 CONTRACT PERFORMANCE PERIOD. The Contractor shall complete all work required under this contract in compliance with the schedule provided below:

6.1.1 Delivery and Installation of the completed Vault Toilet shall occur within 60 days from Notice of Award of Contract.

6.1.2 Delivery address: Chief Joseph Dam Project
North Viewpoint Recreation Area
Half-Sun Way
Bridgeport, Washington

6.1.4 The delivery date shall be coordinated with the Technical Representative five (5) days prior to actual day of delivery. Delivery shall occur between the hours of 7:30 am and 1:00 pm, Monday through Thursday. Deliveries shall not be accepted on weekends or federally recognized holidays.

CLAUSES INCORPORATED BY FULL TEXT

Successor Contracting Officers (52.201-4001)

The Contracting Officer who signed this contract is the primary Contracting Officer for the contract. Nevertheless, any Contracting Officer assigned to the Seattle District and acting within his/her authority may take formal action on this contract when a contract action needs to be taken and the primary Contracting Officer is unavailable.

52.219-8 UTILIZATION OF SMALL BUSINESS CONCERNS (MAY 2004)

(a) It is the policy of the United States that small business concerns, veteran-owned small business concerns, service-disabled veteran-owned small business concerns, HUBZone small business concerns, small disadvantaged business concerns, and women-owned small business concerns shall have the maximum practicable opportunity to participate in performing contracts let by any Federal agency, including contracts and subcontracts for subsystems, assemblies, components, and related services for major systems. It is further the policy of the United States that its prime contractors establish procedures to ensure the timely payment of amounts due pursuant to the terms of their subcontracts with small business concerns, veteran-owned small business concerns, service-disabled veteran-owned small business concerns, HUBZone small business concerns, small disadvantaged business concerns, and women-owned small business concerns.

(b) The Contractor hereby agrees to carry out this policy in the awarding of subcontracts to the fullest extent consistent with efficient contract performance. The Contractor further agrees to cooperate in any studies or surveys as may be conducted by the United States Small Business Administration or the awarding agency of the United States as may be necessary to determine the extent of the Contractor's compliance with this clause.

Definitions. As used in this contract--

HUBZone small business concern means a small business concern that appears on the List of Qualified HUBZone Small Business Concerns maintained by the Small Business Administration.

Service-disabled veteran-owned small business concern--

(1) Means a small business concern--

(i) Not less than 51 percent of which is owned by one or more service-disabled veterans or, in the case of any publicly owned business, not less than 51 percent of the stock of which is owned by one or more service-disabled veterans; and

(ii) The management and daily business operations of which are controlled by one or more service-disabled veterans or, in the case of a service-disabled veteran with permanent and severe disability, the spouse or permanent caregiver of such veteran.

(2) Service-disabled veteran means a veteran, as defined in 38 U.S.C. 101(2), with a disability that is service-connected, as defined in 38 U.S.C. 101(16).

Small business concern means a small business as defined pursuant to Section 3 of the Small Business Act and relevant regulations promulgated pursuant thereto.

Small disadvantaged business concern means a small business concern that represents, as part of its offer that--

(1) It has received certification as a small disadvantaged business concern consistent with 13 CFR part 124, subpart B;

(2) No material change in disadvantaged ownership and control has occurred since its certification;

(3) Where the concern is owned by one or more individuals, the net worth of each individual upon whom the certification is based does not exceed \$750,000 after taking into account the applicable exclusions set forth at 13 CFR 124.104(c)(2); and

(4) It is identified, on the date of its representation, as a certified small disadvantaged business in the database maintained by the Small Business Administration (PRO-Net).

Veteran-owned small business concern means a small business concern--

(1) Not less than 51 percent of which is owned by one or more veterans (as defined at 38 U.S.C. 101(2)) or, in the case of any publicly owned business, not less than 51 percent of the stock of which is owned by one or more veterans; and

(2) The management and daily business operations of which are controlled by one or more veterans.

Women-owned small business concern means a small business concern--

(1) That is at least 51 percent owned by one or more women, or, in the case of any publicly owned business, at least 51 percent of the stock of which is owned by one or more women; and

(2) Whose management and daily business operations are controlled by one or more women.

(d) Contractors acting in good faith may rely on written representations by their subcontractors regarding their status as a small business concern, a veteran-owned small business concern, a service-disabled veteran-owned small business concern, a HUBZone small business concern, a small disadvantaged business concern, or a women-owned small business concern.

(End of clause)

52.228-13 ALTERNATIVE PAYMENT PROTECTIONS (JULY 2000)

(a) The Contractor shall submit one of the following payment protections:

100% PAYMENT BONDS

(b) The amount of the payment protection shall be 100 percent of the contract price.

(c) The submission of the payment protection is required **within 5 days of contract award**.

(d) The payment protection shall provide protection for the full contract performance period plus a one-year period.

(e) Except for escrow agreements and payment bonds, which provide their own protection procedures, the Contracting Officer is authorized to access funds under the payment protection when it has been alleged in writing by a supplier of labor or material that a nonpayment has occurred, and to withhold such funds pending resolution by administrative or judicial proceedings or mutual agreement of the parties.

(f) When a tripartite escrow agreement is used, the Contractor shall utilize only suppliers of labor and material that signed the escrow agreement.

(End of clause)

252.236-7008 CONTRACT PRICES - BIDDING SCHEDULES. (DEC 1991)

(a) The Government's payment for the items listed in the Bidding Schedule shall constitute full compensation to the Contractor for --

(1) Furnishing all plant, labor, equipment, appliances, and materials; and

(2) Performing all operations required to complete the work in conformity with the drawings and specifications.

(b) The Contractor shall include in the prices for the items listed in the Bidding Schedule all costs for work in the specifications, whether or not specifically listed in the Bidding Schedule.

Zone Differential (Add to Zone 1 rates):		
Zone 2 (26-45 radius miles) - \$.70		
Zone 3 (Over 45 radius miles) - \$1.00		
BASEPOINTS: Aberdeen, Bellingham, Bremerton, Everett, Kent, Mount Vernon, Port Angeles, Port Townsend, Seattle, Shelton, Wenatchee, Yakima		
POWER EQUIPMENT OPERATORS CLASSIFICATIONS		
GROUP 1AAA - Cranes-over 300 tons, or 300 ft of boom (including jib with attachments)		
GROUP 1AA - Cranes 200 to 300 tons, or 250 ft of boom (including jib with attachments); Tower crane over 175 ft in height, base to boom		
GROUP 1A - Cranes, 100 tons thru 199 tons, or 150 ft of boom (including jib with attachments); Crane-overhead, bridge type, 100 tons and over; Tower crane up to 175 ft in height base to boom; Loaders-overhead, 8 yards and over; Shovels, excavator, backhoes-6 yards and over with attachments		
GROUP 1 - Cableway; Cranes 45 tons thru 99 tons, under 150 ft of boom (including jib with attachments); Crane-overhead, bridge type, 45 tons thru 99 tons; Derricks on building work; Excavator, shovel, backhoes over 3 yards and under 6 yards; Hard tail end dump articulating off-road equipment 45 yards and over; Loader- overhead 6 yards to, but not including 8 yards; Mucking machine, mole, tunnel, drill and/or shield; Quad 9, HD 41, D-10; Remote control operator on rubber tired earth moving equipment; Rollagon; Scrapers-self propelled 45 yards and over; Slipform pavers; Transporters, all truck or track type		
GROUP 2 - Barrier machine (zipper); Batch Plant Operaor- Concrete; Bump Cutter; Cranes, 20 tons thru 44 tons with attachments; Crane-overhead, bridge type-20 tons through 44 tons; Chipper; Concrete Pump-truck mount with boom attachment; Crusher; Deck Engineer/Deck Winches (power);		

Drilling machine; Excavator, shovel, backhoe-3yards and under; Finishing Machine, Bidwell, Gamaco and similar equipment; Guardrail punch; Horizontal/directional drill operator; Loaders-overhead under 6 yards; Loaders-plant feed; Locomotives-all; Mechanics-all; Mixers-asphalt plant; Motor patrol graders-finishing; Piledriver (other than crane mount); Roto-mill, roto-grinder; Screedman, spreader, topside operator-Blaw Knox, Cedar Rapids, Jaeger, Caterpillar, Barbar Green; Scraper-self propelled, hard tail end dump, articulating off-road equipment-under 45 yards; Subgrade trimmer; Tractors, backhoes-over 75 hp; Transfer material service machine-shuttle buggy, blaw knox-roadtec; Truck crane oiler/driver-100 tons and over; Truck Mount portable conveyor; Yo Yo Pay dozer

GROUP 3 - Conveyors; Cranes-thru 19 tons with attachments; A-frame crane over 10 tons; Drill oilers-auger type, truck or crane mount; Dozers-D-9 and under; Forklift-3000 lbs. and over with attachments; Horizontal/directional drill locator; Outside hoists-(elevators and manlifts), air tuggers, strato tower bucket elevators; Hydralifts/boom trucks over 10 tons; Loader-elevating type, belt; Motor patrol grader-nonfinishing; Plant oiler- asphalt, crusher; Pumps-concrete; Roller, plant mix or multi-lift materials; Saws-concrete; Scrpers-concrete and carry-all; Service engineer-equipment; Trenching machines; Truck Crane Oiler/Driver under 100 tons; Tractors, backhoe 75 hp and under

GROUP 4 - Assistant Engineer; Bobcat; Brooms; Compressor; Concrete finish machine-laser screed; Cranes-A frame-10 tons and under; Elevator and Manlift-permanent or shaft type; Gradechecker, Stakehop; Forklifts under 3000 lbs. with attachments; Hydralifts/boom trucks, 10 tons and under; Oil distributors, blower distribution and mulch seeding operator; Pavement breaker; Posthole digger, mechanical; Power plant; Pumps, water; Rigger and Bellman; Roller-other than plant mix; Wheel Tractors, farmall type; Shotcrete/gunite equipment operator

FOOTNOTE A-Reduced rates may be paid on the following:

1. Projects involving work on structures such as buildings and bridges whose total value is less than \$1.5 million excluding mechanical, electrical, and utility portions of the contract.
2. Projects of less than \$1 million where no building is involved. Surfacing and paving included, but utilities excluded.
3. Marine projects (docks, wharfs, etc.) less than \$150,000.

HANDLING OF HAZARDOUS WASTE MATERIALS:

Personnel in all craft classifications subject to working inside a federally designated hazardous perimeter shall be eligible for compensation in accordance with the following group schedule relative to the level of hazardous waste as outlined in the specific hazardous waste project site safety plan.

H-1 Base wage rate when on a hazardous waste site when not outfitted with protective clothing

H-2 Class "C" Suit - Base wage rate plus \$.25 per hour.

H-3 Class "B" Suit - Base wage rate plus \$.50 per hour.

H-4 Class "A" Suit - Base wage rate plus \$.75 per hour.

POWER EQUIPMENT OPERATORS CLASSIFICATIONS

GROUP 1A: Boat Operator; Crush Feeder; Oiler; Steam Cleaner

GROUP 1: Bit Grinders; Bolt Threading Machine; Compressors (under 2000 CFM, gas, diesel, or electric power); Deck Hand; Drillers Helper (assist driller in making drill rod

connections, service drill engine and air compressor, repair drill rig and drill tools; drive drill support truck to and on the job site, remove drill cuttings from around bore hole and inspect drill rig while in operation); Fireman & Heat Tender; Grade Checker; Hydro- seeder, Mulcher, Nozzleman; Oiler Driver, & Cable Tender, Mucking Machine; Pumpman; Rollers, all types on subgrade, including seal and chip coatings (farm type, Case, John Deere & similar, or Compacting Vibrator), except when pulled by Dozer with operable blade; Welding Machine

GROUP 2: A-frame Truck (single drum); Assistant Refrigeration Plant (under 1000 ton); Assistant Plant Operator, Fireman or Pugmixer (asphalt); Bagley or Stationary Scraper; Belt Finishing Machine; Blower Operator (cement); Cement Hog; Compressor (2000 CFM or over, 2 or more, gas diesel or electric power); Concrete Saw (multiple cut); Distributor Leverman; Ditch Witch or similar; Elevator Hoisting Materials; Dope Pots (power agitated); Fork Lift or Lumber Stacker, hydra-lift & similar; Gin Trucks (pipeline); Hoist, single drum; Loaders (bucket elevators and conveyors); Longitudinal Float; Mixer (portable-concrete); Pavement Breaker, Hydra-Hammer & similar; Power Broom; Railroad Ballast Regulation Operator (self-propelled); Railroad Power Tamper Operator (self-propelled); Railroad Tamper Jack Operator (self-propelled); Spray Curing Machine (concrete); Spreader Box (self-propelled); Straddle Buggy (Ross & similar on construction job only); Tractor (Farm type R/T with attachment, except Backhoe); Tugger Operator

GROUP 3: A-frame Truck (2 or more drums); Assistant Refrigeration Plant & Chiller Operator (over 1000 ton); Backfillers (Cleveland & similar); Batch Plant & Wet Mix Operator, single unit (concrete); Belt-Crete Conveyors with power pack or similar; Belt Loader (Kocal or similar); Bending Machine; Bob Cat; Boring Machine (earth); Boring Machine (rock under 8 inch bit) (Quarry Master, Joy or similar); Bump Cutter (Wayne, Saginaw or similar); Canal Lining Machine (concrete); Chipper (without crane); Cleaning & Doping Machine (pipeline); Deck Engineer; Elevating Belt-type Loader (Euclid, Barber Green & similar); Elevating Grader-type Loader (Dumora, Adams or similar); Generator Plant Engineers (diesel or electric); Gunnite Combination Mixer & Compressor; Locomotive Engineer; Mixermobile; Mucking Machine; Posthole Auger or Punch; Pump (grout or jet); Soil Stabilizer (P & H or similar); Spreader Machine; Tractor (to D-6 or equivalent) and Traxcavator; Traverse Finish Machine; Turnhead Operator

GROUP 4: Concrete Pumps (squeeze-crete, flow-crete, pump-crete, Whitman & similar); Curb Extruder (asphalt or concrete); Drills (churn, core, calyx or diamond) (Operate drilling machine, drive or transport drill rig to and on

job site and weld well casing); Equipment Serviceman, Greaser & Oiler; Hoist (2 or more drums or Tower Hoist); Loaders (overhead & front-end, under 4 yds. R/T); Refrigeration Plant Engineer (under 1000 ton); Rubber-tired Skidders (R/T with or without attachments); Surface Heater & Planer Machine; Trenching Machines (under 7 ft. depth capacity); Turnhead (with re-screening); Vacuum Drill (reverse circulation drill under 8 inch bit)

GROUP 5: Backhoe (under 45,000 gw); Backhoe and Hoe Ram (under 3/4 yd.); Carrydeck & boom truck (under 25 tons); Cranes (25 tons & under); Derricks & Stifflegs (under 65 tons); Drilling Equipment (8 inch bit & over) (Robbins, reverse circulation & similar)(operates drill machine, drive or transport drill rig to and on job site and weld well casing); Hoe Ram; Piledriving Engineers; Paving (dual drum); Railroad Track Liner Operator (self-propelled); Refrigeration Plant Engineer (1000 tons & over); Signalman (Whirleys, Highline Hammerheads or similar)

GROUP 6: Asphalt Plant Operator; Automatic Subgrader (Ditches & Trimmers) (Autograde, ABC, R.A. Hansen & similar on grade wire); Backhoe (45,000 gw and over to 110,000 gw); Backhoes & Hoe Ram (3/4 yd. to 3 yd.); Batch Plant (over 4 units); Batch & Wet Mix Operator (multiple units, 2 & incl. 4); Blade Operator (Motor Patrol & Attachments, Athey & Huber); Boom Cats (side); Cableway Controller (dispatcher); Clamshell Operator (under 3 yds.); Compactor (self-propelled with blade); Concrete Pump Boom Truck; Concrete Slip Form Paver; Cranes (over 25 tons including 45 tons), all attachments including clamshell, dragline);Crusher, Grizzle & Screening Plant Operator; Dozer, 834 R/T & similar; Draglines (under 3 yds.); Drill Doctor; Heavy Duty Mechanic; Heavy Duty Welder; Loader Operator (front-end & overhead, 4 yds. incl. 8 yds.), Multiple Dozer Units with single blade; Paving Machine (asphalt and concrete); Quad-Track or similar equipment; Rollerman (finishing asphalt pavement); Roto Mill (pavement grinder); Scrapers, all, all rubber tired; Screed Operator; Shovel (under 3 yds.); Tractors (D-6 & equivalent & over); Trenching Machines (7 ft. depth & over); Tug Boat Operator; Vactor Guzzler, Super Sucker

GROUP 7: Backhoe (over 110,000 gw); Backhoes & Hoe Ram (3 yds. & over); Blade (finish & bluetop), Automatic, CMI, ABC, Finish Athey & Huber & similar when used as automatic; Cableway Operators; Clamshell Operator (3 yds. & over); Cranes (over 45 tons to but not including 85 tons), all attachments including clamshell and dragline; Derricks and Stifflegs (65 tons and over); Draglines (3 yds. & over); Elevating Belt (Holland type); Heavy Equipment Robototics Operator; Loader (360 degress revolving Koehring Scooper or similar); Loaders (overhead & front-end, over 8 yds. to 10

yds.); Rubber-tired Scrapers (multiple engine with three or more scrapers); Shovels (3 yds. & over); Whirleys & Hammerheads, ALL

GROUP 8: Cranes (85 tons and over, and all climbing, overhead, rail and tower), all attachments including clamshell, dragline; Loaders (overhead and front-end, 10 yards and over); Helicopter Pilot

BOOM PAY: (All Cranes, Including Tower)
 180 ft to 250 ft \$.30 over scale
 Over 250 ft \$.60 over scale

NOTE: In computing the length of the boom on Tower Cranes, they shall be measured from the base of the tower to the point of the boom.

HAZMAT: Anyone working on HAZMAT jobs, working with supplied air shall receive \$1.00 an hour above classification.

WELDERS - Receive rate prescribed for craft performing

operation to which welding is incidental.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

In the listing above, the "SU" designation means that rates listed under the identifier do not reflect collectively bargained wage and fringe benefit rates. Other designations indicate unions whose rates have been determined to be prevailing.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations

Wage and Hour Division

U.S. Department of Labor

200 Constitution Avenue, N.W.

Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request

review and reconsideration from the Wage and Hour Administrator
(See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator

U.S. Department of Labor

200 Constitution Avenue, N.W.

Washington, DC 20210

The request should be accompanied by a full statement of the
interested party's position and by any information (wage
payment data, project description, area practice material,
etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an
interested party may appeal directly to the Administrative
Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board

U.S. Department of Labor

200 Constitution Avenue, N.W.

Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.
